***PUBLIC OPINION SURVEY***

**Louisiana Voters**

## ABOUT THE POLL

This statewide poll was developed and conducted by Southern Media & Opinion Research, Incorporated and paid for by Lane Grigsby.

Interviews for this statewide poll were completed by telephone with 600 likely Louisiana voters from Monday, April 19, through Friday, April 23, 2010.

The overall margin of error for the statewide statistics obtained from the survey data is not greater than plus or minus 4.0 percentage points at the 95% level of confidence. In other words, there is a 95% certainty that the statistics presented from the results obtained on this survey of 600 likely voters statewide will not be more than 4.0 percentage points above or below the figure that would be obtained if all of the likely voters in the state would have been interviewed.

The sample error may be larger for subgroup responses based on attitudinal, demographic and geographic variables such as area, age, etc. There are other sources of potential error which cannot be calculated including question wording and order of question presentation.

An interval sample design was used to select telephone numbers from a sample frame of telephone numbers for likely voter households. Both landline and cellular telephone numbers were included in the sample frame.

Respondents were assigned to one of four geographic areas based on their parish of residence. The four geographic areas along with the parishes comprising those areas are:

**New Orleans metropolitan area**, (includes Jefferson, Orleans, Plaquemines, St. Bernard, St. Charles, St. John the Baptist, St. Tammany and Washington parishes); **Florida-River Parishes**, (includes Ascension, Assumption, East Baton Rouge, East Feliciana, Iberville, Livingston, Pointe Coupee, St. Helena, St. James, Tangipahoa, West Baton Rouge and West Feliciana parishes); **Acadiana-southwest**, (includes Acadia, Allen, Avoyelles, Beauregard, Calcasieu, Cameron, Evangeline, Iberia, Jefferson Davis, Lafayette, Lafourche, St. Landry, St. Martin, St. Mary, Terrebonne and Vermilion parishes); **North Louisiana**, (includes Bienville, Bossier, Caddo, Caldwell, Catahoula, Claiborne, Concordia, DeSoto, East Carroll, Franklin, Grant, Jackson, LaSalle, Lincoln, Madison, Morehouse, Natchitoches, Ouachita, Rapides, Red River, Richland, Sabine, Tensas, Union, Vernon, Webster, West Carroll and Winn parishes).

A quota ensuring representative voter participation by gender in the study was imposed. A statistical weighting procedure was employed to normalize the sample to the voter population based on voter race.

**FREQUENCY RESPONSES—WEIGHTED BY RACE  
SAMPLE SIZE (n=600)**

RESPONSES TO THE QUESTION (Q7):

Over the years, Louisiana voters approved constitutional amendments creating trust funds with specific rules on when the money in those funds can be used. Now the legislature wants to change the rules to make it easier to spend money in those trust funds to cover budget short falls. Do you favor or oppose making it easier to spend money in those trust funds?

RESPONSES TO THE QUESTION (Q14):

Legislation is being proposed in Congress that would do away with workers voting privately by secret ballot in union representation elections. Instead, workers would check on a form whether or not they want to be represented by a union. How each worker voted would be made public. Which would you prefer, a secret ballot or making a worker's vote public?
